*Ukraine has not yet died, nor her glory, nor her freedom,  
Upon us, fellow Ukrainians, fate shall smile once more.  
Our enemies will vanish, like the dew in the sun,  
And we too shall rule, brothers, in a free land of our own.*

*Souls and bodies we'll lay down, all for our freedom,  
And we'll show that we, brothers, are of the Cossack nation!*
